

Dear FCC, I am writing you today on behalf of K-LOVE radio. I would strongly urge you not to force this station to go to LPFM. This station brings good moral and spiritual music into the area that I live in. What comes across the air waves on this station are positive and encourageing to listeners young and old. My values in my life that I try to live by on a day to day basis are brought through this station. When my daughter is listening to the radio I am not concerened of the content of what she is hearing. I believe if this is to happen to this station that it would be detremental to this area of Colorado. Thank you for your time in reviewing my comment on this issue. Brett Gearhart
